During the April 5, 2012, commission meeting, Mr. Sade Panahi and Mr. Dana Ansari made comments about a CSCDA-financed project during public comments. The conclusion of staff’s evaluation of the matter is that the monetary dispute involving Mr. Panahi is of a private nature and not an issue in which CSCDA can provide input or assistance. Staff was directed to send a letter to Mr. Panahi and Mr. Ansari explaining these findings and encouraging the gentlemen to discuss their concerns with CDLAC. A copy of the letter is to be sent to CDLAC.
VIII. Public Comments.

Discuss and approve in concept the establishment of a CSCDA Sustainable Energy Bond Program.
SUMMARY AND RECOMMENDATIONS

DATE: MAY 17, 2012

PURPOSE: DISCUSS AND APPROVE IN CONCEPT THE ESTABLISHMENT OF A CSCDA SUSTAINABLE ENERGY BOND PROGRAM

Background and Discussion:

CSCDA Staff has recently been involved in discussions with the Foundation for Renewable Energy and Environment (FREE) about an innovative energy conservation financing program that can be deployed to public and nonprofit entities throughout California (each, a “Participant”). FREE is a non-profit, international organization established to promote a better future based on energy, water and materials conservation, renewable energy use, environmental resilience, and sustainable livelihoods. FREE works with cities, non-profits, governments, businesses, and academic institutions around the world on environmental and renewable energy issues. FREE was founded in 2011 by Dr. John Byrne, Director and Distinguished Professor of Energy and Climate Policy Center for Energy & Environmental Policy, University of Delaware, Ken Becker of Becker Capital, and Maya Stendhal of Madison Global Advisors. More information about FREE can be obtained at www.freefutures.org.

The Sustainable Energy Bond Program (the “Program”) would provide the various one stop services that an entity needs to fund a grouping of Energy Conservation Measures (ECMs) or to finance a clean energy production system such as a new CHP facility for a Participant in the financing.

The purpose of Program is to provide several critical services, education related information, and provide a financing where the Participant can feel comfortable that they are entering into an agreement that will actually provide the results they have contracted for. Traditionally, many energy efficiency financings have been done in an atmosphere where the Participant had to be concerned and suspicious of the Energy Service Companies that dominated the industry because they, 1) provided the contracts and documents for the energy audits, 2) provided all of the related financing documents, 3) provided all of the monitoring and verification documents, including the ultimate guarantee of energy savings that was supposed to convert into dollar savings, 4) and often times were suggesting equipment manufactured by their company as part of the energy savings program.

The Program serves the purpose of arming the Participant with a team of energy experts that will assist in developing the investment grade energy audit; all of the documents including the Guaranteed Energy Savings Agreement, and the Construction Funding Agreement; assist in the development of monitoring and verification measures that will truly measure not only the energy saved by the dollars saved as well; and will ultimately structure a financing to fund the needed ECMs, take it to market, and provide the funds to the participant for the construction of the ECMs. All of this will be done in the context of the financing providing savings that more than pay for themselves.
That is, the program will create enough operating dollar savings that it will pay debt service for the life of the project, and return an additional amount of savings, to the Participant. The program is designed to not just go after low hanging fruit, such as lighting and monitoring systems, but also will help to finance larger and longer payback projects like CHP projects for energy production.

The Program would be marketed by CSCDA, the participating Underwriters and FREE. The Program can accommodate either a single entity wishing to participate in the program, such as a City or County government that wants to include their municipal buildings into an energy efficiency program, or a clean energy production project such as the funding of CHP or other clean energy production systems; or provide for a pooling arrangement where an entity wants to assist Participants in its jurisdiction in participating in the program. An example of the pooling arrangement may be a City or County that wants to act as the coordinator for helping other jurisdictions within the City or County to participate. This may be the case where a County pools together the various school districts, hospitals, community colleges, private or public universities, etc. in its jurisdiction and coordinates their participation.

Program Team:

The Program would provide a turn-key solution for Participants and a fully assembled finance team similar to other existing CSCDA solutions such as the SCIP Program. The anticipated Program team would consist of the following:

Issuer/Program Sponsor: CSCDA
Consultant on Energy Matters: Foundation for Renewable Energy (FREE)
Financial Advisor: Becker Capital
Bond Counsel: Orrick Herrington & Sutcliffe, LLP
Program Counsel: Drinker Biddle
Underwriters: A team of 3 underwriters that would rotate position, with one being Senior Manager and the others being Co-Managers
Underwriter’s Counsel: To be determined
Other Appropriate Team Members: To be determined

Proposed Program Services:

The following outlines the tasks and services that would be provided to each participant in the Program:

1: Identify Participants for the Program and conduct review of the suitability of Participants.

2: Finalize list of Program Participants. prepare template documents, a list of pre-screened contractors, template letters of intent, forms for a pre-contract energy audit, schedules and forms for monitoring and verification protocols.

3: Create an initial financial and legal structure.

4: Plan, organize and conduct education day.
5: Assist Participants with negotiation and preparation of pre-contract energy audits. Advise Participants on appropriate monitoring and verification protocols (M&V), and review the revised structure with participants.

6: Structure bond issue, present comparison metrics, and contractors submit reports for each Participant.

7: Preparation of final investment grade energy audits (IGEAs), bring bonds to market, and provide funding for the construction of the ECMs.

**Recommendation:**

Staff recommends proceeding with the creation of a CSCDA Sustainable Energy Bond Program to facilitate energy upgrades and related financing for public and nonprofit entities throughout California. Orrick, Herrington & Sutcliffe, as CSCDA’s Issuer Counsel has conducted a preliminary review of the Program and deems it to be acceptable for CSCDA participation. Staff will bring back all future Program details (including the appointment of other finance team members) to the Authority for approval.

SUMMARY AND APPROVALS

DATE: MAY 17, 2012

APPLICANT: COLONY STUDENT HOUSING, LLC/CALIFORNIA BAPTIST UNIVERSITY

AMOUNT: UP TO $40,000,000 OF TAX-EXEMPT BONDS

PURPOSE: ISSUANCE OF TAX-EXEMPT BONDS TO FINANCE THE ACQUISITION OF STUDENT HOUSING FACILITIES AND THE CONSTRUCTION OF CERTAIN EDUCATIONAL BUILDINGS

PRIMARY ACTIVITY: UNDERGRADUATE AND GRADUATE UNIVERSITY EDUCATION

LEGAL STRUCTURE: 501(C)(3) CORPORATION

Background:

California Baptist University (the "University") is a 501(c)(3) non-profit religious corporation chartered in 1950 through an initiative of the Los Angeles Baptist Association. The University is located in the City of Riverside with approximately 509 faculty members and more than 5,400 undergraduate and graduate students. Over 100 undergraduate majors and 30 graduate majors and credentials are offered to students at the University within the areas of education, music, sciences, and the liberal arts. The University is fully accredited by the Western Association of Schools and Colleges ("WASC"). Average tuition and fees for a full academic year is approximately $25,810.

Colony Student Housing is a limited liability company, whose sole member is the Lancer Educational Housing Corporation, a California nonprofit corporation established to own, acquire, develop, lease, and manage housing and related services of the University.

The University is seeking up to $40 million to acquire The Colony, a student housing facility located adjacent to the campus in Riverside (the "Project"). The 528 bedroom Project will accommodate up to 1,056 students in furnished units that include kitchens. Site amenities include a swimming pool, spa, student center, basketball court, tennis courts, laundry facilities, 550 parking spaces, and a security gate. All units have air conditioning and gas heaters, dishwashers, and washer/dryer hookups.

Since the construction of the Project in 1986, the University has been undergoing rapid growth—from less than 1,000 students in the late 1980s to over 5,400 students today. As part of this growth, the University’s real estate demand has greatly increased and resulted in the need to expand their housing footprint. The Project is a critical component of the University’s future. Its adjacency to campus as well as its ability to provide a long-term student housing solution makes it an integral part of the University’s future.

CSCDA has issued bonds in 2007 and 2010 for Lancer Educational Housing Corporation at the University totaling $43,930,000.
Financing Approval:

Based on the overall Project public benefit and finance related considerations detailed on Attachment 1, this Commission shall approve the Resolution as submitted to the Commission, which will:

1. Approve the issuance of the Bonds and the financing of the Project;

2. Approve all necessary actions and documents for the issuance of the Bonds; and

3. Authorize any member of the Commission or Authorized Signatory to sign all necessary documents with respect to the issuance of the Bonds, as more fully set forth in the Resolution submitted to the Commission.
Public Benefit:

- The University provides financial assistance to approximately 90% of its enrolled undergraduate students.

- Approximately 75% of students receive more than $7,000 in financial aid. During fiscal year 2010-2011, University students received approximately $97 million through financial aid programs, including University funded loans.

- The University is known for its commitment to community outreach. The University strives to provide students, faculty, and staff with opportunities to expand their global vision and gain hands-on ministry experience in a cross-cultural setting.

- Students, faculty, and staff are involved in University sponsored programs and events, church ministries, and community service organizations in the Riverside area, the Inland Empire, across the State of California, and around the world.

- International programs include educational partnerships with a number of universities in Europe and Asia. The University’s International Service Projects program annually sends scores of student teams throughout the world to teach and participate in recreation, construction and infrastructure.

Agency Approvals:

A TEFRA hearing was held on April 24, 2012 and unanimously approved by the Riverside City Council.

Finance Team:

- Bond Counsel: Meyers Nave, San Francisco
- Authority Counsel: Orrick, Herrington & Sutcliffe, LLP, Sacramento
- Private Placement Purchaser: California Bank & Trust

Financing Structure:

The Bonds will be structured as fixed rate and unrated and privately placed with California Bank and Trust. Bonds will have a maximum 30-year final maturity of June 1, 2042. The issuance complies with CSCDA’s issuance policies.

<tr>
<td>PROGRAM:</td>
<td>(TRANS) TAX AND REVENUE ANTICIPATION NOTES PROGRAM</td>
</tr>
</tbody>
</table>

**Background:**

The California Communities Tax and Revenue Anticipation Notes ("TRANs") Program was developed to assist local governments in financing short term cash flow deficits, which occur due to the irregular receipt of certain taxes and revenues; and the ongoing requirement for regular disbursements of operating expenses.

Individual participant issuance amounts have ranged in size from $100,000 up to $320,000,000. The Authority has issued over $8.6 billion in TRANs, serving more than 150 local agencies since 1993. In 2011, the Authority issued approximately $150,000,000 on behalf of 10 Cities and Counties in California.

**Summary:**

The City of Redding and the Apple Valley Fire Protection District have requested the Authority issue 2012 TRANs, in the anticipated amount of $15,000,000, on their behalf. The City of Redding has approved the issuance of approximately $10 million in TRANs on May 1, 2012 and the Apple Valley Fire Protection District approved the issuance of approximately $5 million in TRANs on April 19th, 2012; and both have requested that the TRANs be sold through the California Communities Tax Revenue Anticipation Notes Program.

**Public Benefit:**

- The issuance of TRANs on behalf of the City of Redding and the Apple Valley Fire Protection District will allow for the regular receipt of certain taxes and revenues; providing the ability to make routine operating expense disbursements.

- The issuance will provide an inexpensive method of financing short-term cash shortfalls and possibly produce arbitrage earnings.

**Recommendation:**

Based on the overall public benefit, conformance to the California Communities Issuance Policies and finance related considerations detailed on Attachment A; it is recommended that this Commission approve the Resolution as submitted to the Commission, which:

1. Approves the issuance of TRANs through the Tax Revenue Anticipation Note Program;
2. Approves all necessary actions and documents for the financing; and
3. Authorizes any member of the Commission or Authorized Signatory to sign all necessary documents.
Attachment A – Tax and Revenue Anticipation Notes Summary

Item VII

APPLICANT: Rady Children’s Hospital

PURPOSE: Amendments to Bond Indenture and Loan Documents

PRIMARY ACTIVITY: Healthcare

PROGRAM: 501(C)(3) Nonprofit Corporation

Background:

Currently, all four series of the 2008 Bonds are in either daily or weekly variable rate demand or “VRDB” mode. The VRDB mode requires the use of bank letters of credit (“LOCs”) to secure the 2008 Bonds. Currently such LOCs have 3-5 year terms. While providing attractive interest rates, the VRDB mode is reliant on the LOC bank’s credit rating and also provides investors with the right to regularly tender (or put) their bonds. Radys has received proposals from JPMorgan Chase and Wells Fargo to provide “Direct Placement” financing with 7-year terms at interest rates similar to VRDBs. Direct Placement financing has certain advantages over VRDBs, in that it eliminates the reliance on a bank’s credit rating as well as the investor put feature. In order for Radys to take advantage of these Direct Placement proposals, it is necessary to add an additional mode—known as an “Index” mode—to the Series 2008B and Series 2008D bond indenture and loan agreements. Therefore, Radys is requesting that CSCDA approve the resolution authorizing these amendments to provide for an Index mode and make certain other changes required by the purchasers. The 2008 Bonds will remain in compliance with all of CSCDA’s issuance policies after the amendments take place.

Finance Team:

Bond Counsel: Orrick, Herrington & Sutcliffe, Sacramento

Issuer Counsel: Orrick, Herrington & Sutcliffe, Sacramento

Recommendations:

It is recommended that this Commission approve the resolution as submitted to the Commission, which:

1. Approves the amendments to provide for an Index mode to the Series 2008B and Series 2008D bond indenture and loan agreements; and
2. Authorizes any member of the Commission or Authorized Signatory to sign all necessary documents.
