Motion to approve staff recommendation by Harrison; second by Holly; unanimously approved by roll-call vote.

VIII. Approve a resolution authorizing issuance of limited obligation improvement bonds not to exceed $50 million for the CaliforniaFIRST commercial program.

Scott Carper (HB Capital) explained that staff felt it was desirable to modify the commercial PACE program in a similar fashion as the residential PACE program whereby the commission approves bonds up to a maximum amount rather than require approval at each issuance.

Mimi Frusha (Renewable Funding) updated the commission about a few of the projects that are currently in the works. She also indicated interest in the program is beginning to pick up.

Motion to approve staff recommendation by Holly; second by Bornstein; unanimously approved by roll-call vote.

IX. Approve David Taussig & Associates' fee schedule as assessment engineer to the Commercial PACE Program.

Scott Carper (HB Capital) explained that David Taussig & Associates is already the assessment engineer for the residential PACE program, as well as for the SCIP program. The commission has experience working with this firm and staff requests approval of the fee schedule.

Motion to approve staff recommendation by Bornstein; second by Holly; unanimously approved by roll-call vote.

X. Approve CaliforniaFIRST program changes.

Mimi Frusha (Renewable Funding) explained the following four changes to the program: (i) permits re-amortization of the PACE assessment after the customer partially prepays; (ii) extends the maximum term for eligible projects beyond 20 years; (iii) permits a 30-day extension for those who install solar PV; and (iv) raise the maximum eligible value to 15% to be consistent with the PACE Loss Reserve requirements.

Executive Director Bando recommends adoption of the program changes.

Motion to approve staff recommendation by Harrison; second by Bornstein; unanimously approved by roll-call vote.
XI. Residential PACE program update.

Mimi Frusha (Renewable Funding) explained the program launched in 17 counties a little over one month ago, and is going well. Over 50% of the activity experienced since May has occurred during the last four weeks, which seems promising. The program currently has over 50 approved contractors, with close to 500 expected by year-end. Over 600 applications (approx. $14 million) have been received to date. Have been working to expand the program, including recruiting additional counties.

XII. Approve the issuance of request for proposals for the telecommunication asset monetization program.

Scott Carper (HB Capital) explained the proposed underutilized telecommunications assets monetization program. One such recent transaction occurred in Texas and another is taking place in New York. Staff believes such a program may be of interest and benefit to California members, so requests approval to send out an RFP to investment banking firms that may be interested in administering and marketing the program.

Chair Larry Combs suggested that the program be expanded to include other electronic equipment, including computers.

Motion to approve staff recommendation, amended to include electronic equipment, by Holly; second by Harrison; unanimously approved by roll-call vote.

XIII. Public comment.

RESOLUTION NO. 42-2014

A RESOLUTION AUTHORIZING THE TOWN OF TIBURON TO JOIN THE CALIFORNIAFIRST PROGRAM; AUTHORIZING THE CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY TO ACCEPT APPLICATIONS FROM PROPERTY OWNERS, CONDUCT CONTRACTUAL ASSESSMENT PROCEEDINGS AND LEVY CONTRACTUAL ASSESSMENTS WITHIN THE TERRITORY OF THE TOWN; AND AUTHORIZING RELATED ACTIONS

WHEREAS, the California Statewide Communities Development Authority ("California Communities") is a joint exercise of powers authority the members of which include numerous cities and counties in the State of California, including the Town of Tiburon (the "Town"); and

WHEREAS, California Communities has established the CaliforniaFIRST program (the "CaliforniaFIRST Program") to allow the financing of certain renewable energy, energy efficiency and water efficiency improvements (the "Improvements") through the levy of contractual assessments pursuant to Chapter 29 of Division 7 of the Streets & Highways Code ("Chapter 29") and the issuance of improvement bonds (the "Bonds") under the Improvement Bond Act of 1915 (Streets and Highways Code Sections 8500 and following) (the "1915 Act") upon the security of the unpaid contractual assessments; and

WHEREAS, Chapter 29 provides that assessments may be levied under its provisions only with the free and willing consent of the owner of each lot or parcel on which an assessment is levied at the time the assessment is levied; and

WHEREAS, the Town desires to allow the owners of property within its jurisdiction ("Participating Property Owners") to participate in the CaliforniaFIRST Program and to allow California Communities to conduct assessment proceedings under Chapter 29 and to issue Bonds under the 1915 Act to finance the Improvements; and

WHEREAS, California Communities will conduct assessment proceedings under Chapter 29 and issue Bonds under the 1915 Act to finance Improvements;

WHEREAS, there has been presented to this meeting a proposed form of Resolution of Intention to be adopted by California Communities in connection with such assessment proceedings (the "ROI"), a copy of which is attached hereto as Exhibit A, and the territory within
which assessments may be levied for the CaliforniaFIRST Program shall include all of the
territory within the Town’s official boundaries of record (the “Proposed Boundaries”); and

WHEREAS, the Town will not be responsible for the conduct of any assessment
proceedings; the levy or collection of assessments or any required remedial action in the case of
delinquencies in such assessment payments; or the issuance, sale or administration of the Bonds
or any other bonds issued in connection with the CaliforniaFIRST Program; and

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Tiburon as follows:

Section 1.
On the date hereof, the Town Council held a public meeting and the Town Council hereby finds and declares that the issuance of bonds by California Communities in connection with the CaliforniaFIRST Program will provide significant public benefits, including without limitation, savings in effective interest rate, bond preparation, bond underwriting and bond issuance costs and reductions in effective user charges levied by water and electricity providers within the boundaries of the Town.

Section 2.
In connection with the CaliforniaFIRST Program, the Town hereby consents to the conduct of special assessment proceedings by California Communities pursuant to Chapter 29 on any property within the Proposed Boundaries and the issuance of Bonds under the 1915 Act; provided, that

i. Such proceedings are conducted pursuant to one or more Resolutions of Intention in substantially the form of the ROI;

ii. The Participating Property Owners, who shall be the legal owners of such property, execute a contract pursuant to Chapter 29 and comply with other applicable provisions of California law in order to accomplish the valid levy of assessments; and

iii. The Town will not be responsible for the conduct of any assessment proceedings; the levy or collection of assessments or any required remedial action in the case of delinquencies in such assessment payments; or the issuance, sale or administration of the Bonds or any other bonds issued in connection with the CaliforniaFIRST Program.

iv. The issuance of Bonds will occur following receipt of a final judgment in a validation action filed by California Communities pursuant to Code of Civil Procedure Section 860 that the Bonds are legal obligations of California Communities.
Section 3.
Pursuant to the requirements of Chapter 29, California Communities has prepared and will update from time to time the “Program Report” for the CaliforniaFIRST Program (the “Program Report”), and California Communities will undertake assessment proceedings and the financing of Improvements as set forth in the Program Report.

Section 4.
The appropriate officials and staff of the Town are hereby authorized and directed to make applications for the CaliforniaFIRST program available to all property owners who wish to finance Improvements; provided, that California Communities shall be responsible for providing such applications and related materials at its own expense. The Town designates the Marin Clean Energy as the primary point of contact for California Communities in connection with the CaliforniaFIRST Program.

Section 5.
The appropriate officials and staff of the Town are hereby authorized and directed to execute and deliver such closing certificates, requisitions, agreements and related documents as are reasonably required by California Communities in accordance with the Program Report to implement the CaliforniaFIRST Program for Participating Property Owners.

Section 6.
The Town Council hereby finds that adoption of this Resolution is not a “project” under the California Environmental Quality Act, because the Resolution does not involve any commitment to a specific project which may result in a potentially significant physical impact on the environment, as contemplated by Title 14, California Code of Regulations, Section 15378(b)(4).

Section 7.
This Resolution shall take effect immediately upon its adoption. The Town Clerk is hereby authorized and directed to transmit a certified copy of this resolution to the Secretary of California Communities.

### Background:

The Buck Institute for Research on Aging (the “Institute” or the “Borrower”) was incorporated in November 1986 as an independent organization whose mission is to increase the healthy, productive years of life through research and education in aging. The Institute is a nonprofit public benefit corporation, an exempt organization described in Section 501(c)(3) of the Internal Revenue Code, which receives a portion of its funding from the Leonard and Beryl Buck Foundation (also known as the “Buck Trust”) pursuant to an order of the Marin County Superior Court.

The Institute is located at 8001 Redwood Boulevard, Novato, California in Marin County and is situated on approximately 400+ acres. In 1989, the Institute acquired its campus in northern Marin County; in 1996, it began construction of its existing research buildings; and in 1999 it began operating as a scientific research organization in this newly constructed space. The Institute opened its second research building in April 2012 and now has entitlements for 355,000 square feet of research and administrative space housing up to 550 employees.

The Institute is dedicated to studying the basic biology of aging and age-associated diseases. The mission of the Institute is to increase the healthy, productive years of each individual’s life through clinically relevant biomedical research and education on aging and age-associated diseases such as Alzheimer’s, Parkinson’s, cancer and stroke. The Institute’s research programs address two fundamental questions: What is the nature of aging? And what factors trigger diseases associated with age?

The Institute currently houses the laboratories of principal investigators recruited for leadership in their respective fields of research. The Institute’s research programs are based on an interdisciplinary approach, involving complementary areas of inquiry:

- The genetics and biochemistry of aging including oxidative stress, mitochondrial function and genetic determination of lifespan.
- Age-related conditions including cancer, stroke, diabetes, cardiovascular disease, osteoporosis, macular degeneration, Alzheimer’s disease and Parkinson’s disease.
- Regenerative medicine (stem cell research) and aging.
- New technology to support age-related research including genomics, morphology, proteomics, metabolomics and bioinformatics.
The Borrower has requested that CSCDA issue up to $95 million in revenue bonds to: (1) refund The Buck Institute’s outstanding Series 2001 and Series 2010 Bonds, (2) fund a debt service reserve fund, (3) fund working capital and (4) pay for certain costs of issuance. The Series 2001 variable rate demand bonds are supported by an irrevocable direct pay letter of credit from US Bank and the Series 2010 variable rate bonds are bank qualified bonds currently held by US Bank. This is the Authority’s first financing with the Institute.

Public Benefit:

The Institute considers education and training at all levels a key component of its research program. One of the most important functions is to encourage the career development of the next generation of age researchers. The Institute sponsors a series of informal (intramural) and formal (extramural) research seminars that include international and national scientific symposia for the aging research community. The Science Education Program allows high school and college students to work side by side with researchers to enhance learning and encourage students interested in entering the field of science. In addition, the Institute conducts public seminars on various topics related to aging for San Francisco Bay Area residents. Docent-led public tours are also conducted on a weekly basis.

Additionally, the Institute is a job generator for Marin County, employing over 300 people at their facility.

TEFRA Information:

TEFRA is scheduled for October 28, 2014 in the City of Novato.

c. 899 Charleston (Moldaw Residences), City of Palo Alto, County of Santa Clara; up to $75 million in revenue refunding bonds. (Staff: Scott Carper)
SUMMARY AND APPROVALS

DATE: OCTOBER 23, 2014

APPLICANT: 899 CHARLESTON, DBA MOLDAW RESIDENCES

AMOUNT: UP TO $75 MILLION OF REVENUE BONDS

PURPOSE: FINANCE AND/OR REFINANCE REVENUE BONDS FOR THE ACQUISITION, CONSTRUCTION, EQUIPPING AND FURNISHING OF A CONTINUING CARE RETIREMENT COMMUNITY

PRIMARY ACTIVITY: CONTINUING CARE RETIREMENT COMMUNITY

LEGAL STRUCTURE: 501(C)(3) CORPORATION

Background:

899 Charleston, doing business as Moldaw Residences (the “Corporation”), is a California nonprofit public benefit corporation that operates a continuing care retirement community known as Moldaw Residences, located at 899 East Charleston Road in Palo Alto (the “Project” or “Moldaw”).

Moldaw is part of the approximate 8.6 acre site of the Taube Koret Campus for Jewish Life (the “Campus”), a mixed-use, intergenerational complex that includes Moldaw, the Oshman Family Jewish Community Center (“OFJCC”), the regional headquarters for the Jewish Community Federation of the San Francisco, Peninsula, Marin and Sonoma Counties, and offices for other area non-profits. The amenities of OFJCC, such as fitness, educational, and cultural space, are available to Moldaw residents. The campus plan reflects a pedestrian-friendly village environment, integrating senior living with community center facilities serving all age groups. Outdoor “rooms” in Palo Alto’s mild Mediterranean-like climate provide additional space for program and social/recreational activites. The parking for the entire campus is provided at ground level underneath the buildings, which range from two to four stories.

Moldaw includes 170 independent living units, 12 assisted living units, and 12 memory support units. Skilled nursing is provided through arrangements with the Jewish Home of San Francisco (the “Home”) on a priority-access basis, or through arrangements with local skilled nursing facilities, such as Saratoga Retirement Community. This is the Authority’s first financing with the Corporation.

In 2007, the Association of Bay Area Governments Finance Authority issued $165,805,000 Variable Rate Revenue Bonds to finance the construction of the Project. The Borrower is requesting CSCDA to issue up to $75,000,000 in revenue refunding bonds (the “Bonds”) that, together with other funds on hand, to refinance the outstanding 2007 Bonds, in addition to loans from Bank of America, the Home, and the Jewish Home and Senior Living Foundation (the “Foundation”), as well as fund a debt service reserve fund and pay for costs of issuance.

Public Benefit:

Moldaw participates in the City of Palo Alto’s Below Market Rate Program, making its community more accessible to all seeking the vibrant retirement lifestyle its facility offers. Through this program,
Moldaw offers a limited number of apartments available under a special contract option that offers value-priced entrance and monthly fee services. Below Market Rate is not a low-income housing or a subsidized program, but it is designed for people with a more moderate asset base and income. Fifty percent of the entrance fee is returned to the resident or their estate after vacating and leaving the community and a new resident closes on the apartment. There are no real estate-related commissions or property taxes involved. Residency in Palo Alto is not required. Given the exorbitant living and housing costs in Palo Alto, the Below Market Rate provides a significant public benefit to those who might not otherwise have access to the quality of retirement life that Moldaw offers.

TEFRA Information:

TEFRA is scheduled for November 4, 2014 in Santa Clara County.

Finance Team:

• Bond Counsel: Orrick, Herrington & Sutcliffe, LLP, Portland

### Background:

The California College of the Arts (the “College”), founded in 1907, has been distinguished by its recognition of the craft art forms as fine arts and for its interdisciplinary approaches to the fields of art, architecture, and design. In design, “West Coast Imagery” is largely the product of designers associated with the College for the last two decades. In architecture, the College has created a new American architecture school, accredited by the National Architectural Accrediting Board. The College maintains fully two campuses located in Oakland and San Francisco, California. The curriculum is designed to educate artists, not just to train specialists; thus, the College also has extensive requirements in humanities and sciences.

The College is located on two campuses, one in Oakland and the other in San Francisco. The Oakland campus is comprised of 17 buildings totaling approximately 200,000 square feet of space on 4.4 acres. The Oakland campus houses the majority of departments in Fine Arts, the Humanities and Sciences (including Writing and Literature, Visual Studies), as well as the First Year Program. Fine Arts departments include: Sculpture, Jewelry/Metal Arts, Glass, Photography, Animation, Drawing and Painting, Ceramics, Printmaking, and Textiles.

The Oakland campus provides housing for approximately 260 students. 185 students are housed on-campus. An additional 75 students are provided housing in 20,000 square feet owned by the college near campus. The college has leased space adjacent to the Oakland campus for an expanded student exhibition program and student counseling offices.

The San Francisco campus is comprised of 6 buildings totaling approximately 250,000 gross square feet. In 2011, the college acquired 102,000 square foot lot adjacent to the main building on the San Francisco campus. This acquisition brings the college’s total land holdings in San Francisco to 6.6 acres.

The College’s accreditation was reaffirmed in June 2009 by the Western Association of Schools and Colleges. The College is also accredited by the National Association of Schools of Art and Design (NASAD), the National Architectural Accrediting Board (NAAB), and the Council for Interior Design (CIDA).
The College is seeking up to $26 million in a tax-exempt nonprofit loan (the "Obligation") from First Republic Bank (the "Lender") to refund the series 2005 & 2007 California Educational Facilities Authority bonds. The refunding is being done solely for debt service savings due to a substantially lower interest rate.

The Borrower's application was submitted to CSCDA on June 25, 2014. This is the college's first financing with CSCDA.
Attachment 1

Benefits:

- Approximately 86% of all students at the College receive some form of financial aid. Total Financial assistance to College students for the current academic year is estimated to be in excess of $20 million.

- The College has a 403(b) Tax Sheltered Annuity (TSA) and a Salary Reduction Annuity (SRA) Plan for its employees. Plan Participants direct how their contributions and balances are to be invested and reinvested. There are various methods by which benefits may be distributed under the Plan. Employees contribute to the Salary Reduction Annuity (SRA) through written salary reduction agreements. The College’s employer contribution is presently 5% of annual compensation as defined under the Plan. In fiscal year 2013, College employer contributions to the Plan totaled $752,000.
**TEFRA Information:**

A TEFRA hearing was held by the City & County of San Francisco on October 3, 2014 & was approved. The approval of the financing by the Board of Supervisors of the City /County of San Francisco is a condition precedent to the approval of the financing by CSCDA. A TEFRA hearing was held by the County of Alameda on October 14, 2014 and received unanimous approval.
