PURPOSE: Consideration of Audited Financial Statements for Fiscal Year Ending June 30, 2021

BACKGROUND AND SUMMARY:

CSFA was created in 2002 as a joint-powers authority between the following counties to finance payments from the nationwide Tobacco Settlement Agreement. The participants include: Colusa, Imperial, Kings, Madera, Modoc, San Benito, Solano, Tehama, Tuolumne, Yolo and Yuba counties.

The following is a summary of the year ended June 30, 2021 financial statements:

- The largest asset of the CSFA (78% of the assets) is investments primarily comprised of unspent bond proceeds.
- The only asset recorded for the pledged tobacco settlement proceeds is the receivable attributable to the current period.
- The CSFA’s net position is in a deficit of approximately $260.3 million and $257.6 million as of June 30, 2021 and 2020 respectively. Since the interest accreted during the year in the amount of $11 million was more than the principal paid of $5,905,000 the overall outstanding bond liability and deficit increased.
- The revenue activity in 2021 was $2 million more than 2020 due to increases in tobacco settlement proceeds received in 2021.
- During the year long term debt increased by $5.4 million attributable to principal payments in the amount of $5.9 million, amortization of the bond discount of $0.2 million and the accretion of interest in the amount of $11.1 million.
- The decline in the overall consumption of cigarettes below levels estimated, could have a material effect on the payments received by CSFA used to pay its debt service. CSFA is currently on track to meet the maturity dates of the bonds, but is presently behind on the expected final turbo redemption dates.

RECOMMENDATION:

CSCDA’s Executive Director recommends the approval of the year ended June 30, 2021 financial statements for CSFA.

INDEPENDENT AUDITOR’S REPORT

To the Board of Directors
California Statewide Financing Authority
Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the debt service fund of the California Statewide Financing Authority (the Authority), as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the debt service fund of the California Statewide Financing Authority, as of June 30, 2021 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.
Emphasis of Matter

As discussed in Note 8 to the financial statements, the Authority has a deficit net position as a result of the full amount of the long-term liabilities being presented on the face of the financial statements, but only a portion of the tobacco settlement revenues being presented on the face of the financial statements. In addition, Fitch withdrew all ratings assigned to U.S. tobacco asset-backed securities, and Moody's ratings on the Authority's Series 2002 term bonds range from Ba3 to Baa1. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents, be presented to supplement the basic financial statement. Such information, although not a part of the basic financial statement, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statement, and other knowledge we obtained during our audit of the basic financial statement. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 8, 2021 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

Management’s Discussion and Analysis (Unaudited)

The California Statewide Financing Authority (the Authority) is a public entity created by a Joint Exercise of Powers Agreement (Agreement) effective as of June 14, 2002 between the California counties of Colusa, Imperial, Kings, Madera, Modoc, San Benito, Solano, Tehama, Tuolumne, Yolo, and Yuba (the participating counties). A seven-member board of directors (Board) made up of the Commission of the California Statewide Communities Development Authority, a joint powers agency created pursuant to an amended and restated joint exercise of powers agreement dated as of June 1, 1988, governs it. The Authority was created for the purpose of empowering the Authority to finance the payments to be received by the participating counties from the nation-wide Tobacco Settlement Agreement (Payments) for such purposes, but not limited to, issuance, sale, execution and delivery of Bonds secured by those Payments or the lending of money based on thereof, or to securitize, sell, purchase or otherwise dispose of some or all of such Payments of the participating counties.

The Authority is a public entity legally separate and apart from the participating counties. The debts and liabilities of the Authority belong solely to it, and none of the participating counties are in any way responsible for those liabilities.

As management of the Authority, we offer readers of our financial statements this narrative overview and analysis of the financial activities for the year ended June 30, 2021.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of two components: 1) the financial statements and 2) notes to the financial statements.

Financial Statements. The financial statements combine what are known as the government-wide and fund financial statements.

The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private sector business, and include the following statements:

The statement of net position presents information on the Authority's assets and liabilities, with the difference between the two reported as net position. The statement of net position is presented as the right column on page 7.

The statement of activities presents information showing how the Authority's net position changed during the year ended June 30, 2021. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g. accrued interest payable). The statement of activities is presented as the right column on page 8.

Fund financial statements reflect a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements report essentially the same functions as those reported in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the period. The debt service fund financial statements are presented as the left columns on pages 7 and 8.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented. Reconciliations between both the governmental fund balance sheet and statement of revenues, expenditures, and change in fund balance and the government-wide statement of net position and statement of activities, respectively, are provided to facilitate the comparison. These reconciliations are presented as the adjustments columns on pages 7 and 8.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 9 - 15 of this report.
Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. The largest asset of the Authority (78% of total assets) is investments, primarily comprised of unspent bond proceeds, most of which is set aside for the bond reserve requirement. The majority of the Authority's liabilities (100%) relate to outstanding bonds. Because the only asset recorded for the pledged tobacco settlement proceeds is the receivable attributable to the current period, the Authority's net position is in a deficit position of approximately $260.3 and $257.6 million as of June 30, 2021 and 2020, respectively. Both the outstanding bonds and the deficit net position amounts will increase or decrease in tandem as tobacco settlement proceeds are received and bonds are paid. Since the interest accreted during the year of $11,088,141 was more than the principal paid of $5,905,000, the overall outstanding bond liability and deficit net position increased. While outstanding, the bonds will remain the primary liability of the Authority.

The revenue activity for the year ended June 30, 2021 was $2,035,814 more than 2020 due to an increase in the settlement proceeds received during 2021. Interest and fiscal charge activity between the two years remained relatively consistent.

### Governmental Activities

The Authority does not have business-type activities, and so the analysis presented above for the government-wide financial statements also represents an analysis of the Authority's governmental activities.

### Financial Analysis of the Authority's Governmental Fund

As noted earlier, the Authority uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

As of June 30, 2021 and 2020, the Authority reported ending fund balances of $27.6 million and $25.4 million, respectively, which is all restricted for debt service purposes. For the year ended June 30, 2021, the Authority's fund balance increased by $2,169,218 to $27.5 million as a result of the Authority incurring approximately $13.8 million for debt service expenditures, net of $15.2 million in tobacco settlement proceeds and $751,000 in investment income.
Capital Assets and Debt Administration

Capital Assets

At the end of the current period, the Authority did not have any capital assets.

Debt Administration

Tobacco Settlement Asset-Backed Bonds, Series 2002 Bonds were issued July 17, 2002 and Series 2006 Bonds were issued April 13, 2006, for the purpose of allowing the Authority to finance and secure a specific level of receipts in lieu of the actual payments to be received by the participating counties from the nation-wide Tobacco Settlement Agreement (Payments). The settlement was based on a number of lawsuits by states and local governments against the various tobacco corporations to recover the cost of health and related other costs attributed to smoking. A Master Settlement Agreement was created among the impacted parties, which delineated the receipts the participating counties would be entitled to receive from the settlement. The proceeds were used to purchase the tobacco settlement rights.

The participating counties expect to use the proceeds to fund escrow endowments and, from the endowments and interest earnings thereon, to finance or refinance over a period of years capital projects and/or other county non-capital programs not specifically identified.

- $98,770,000 for two issues of Series 2002A Bonds. The first series is for $10,090,000 in serial bonds, issued with interest rates ranging from 3.125% to 5.125%, which final matured on May 1, 2017. The second series of A bonds represent three issues of term bonds. The first term bond is for $28,045,000 with an interest rate of 5.625%, and due on May 1, 2029. The second term bond is for $27,540,000 with an interest rate of 6%. There was a total of $2,965,000 which was turbo-redeemed on November 1, 2020 and May 1, 2021. The remaining bonds are due on May 1, 2037. The third term bond is for $33,095,000 with an interest rate of 6%, with an expected final turbo redemption date of May 1, 2022, and due on May 1, 2043.

- $97,775,000 for two issues of Series 2002B Bonds. The first series is for $9,980,000 in serial bonds, issued with interest rates ranging from 3.125% to 5.125%, which final matured on May 1, 2017. The second series of B bonds represent three issues of term bonds. The first term bond is for $27,765,000 with an interest rate of 5.625%, due on May 1, 2029. The second term bond is for $27,265,000 with an interest rate of 6%. There was a total of $2,940,000 which was turbo-redeemed on November 1, 2020 and May 1, 2021. The remaining bonds are due on May 1, 2037. The third term bond is for $32,765,000 with an interest rate of 6%, with an expected final turbo redemption date of May 1, 2022, and due on May 1, 2043.

- $25,566,106 Series 2006A Turbo Capital Appreciation Bonds with an interest rate of 6.25%, with an expected final turbo redemption date of June 1, 2028, and due on June 1, 2046.

- $6,466,114 Series 2006B Turbo Capital Appreciation Bonds with an interest rate of 6.375%, with an expected final turbo redemption date of June 1, 2030, and due on June 1, 2046.

- $18,913,518 Series 2006C Turbo Capital Appreciation Bonds with an interest rate of 7%, with an expected final turbo redemption date of June 1, 2035, and due on June 1, 2055.

- $10,804,800 Series 2006D Turbo Capital Appreciation Bonds with an interest rate of 7.875%, with an expected final turbo redemption date of June 1, 2040, and due on June 1, 2055.

During the year ended June 30, 2021, long-term debt increased by $5.4 million attributable to principal payments in the amount of $5.9 million, amortization of the bond discount of $0.2 million, and the accretion of interest in the amount of $11.1 million.

The Moody's ratings on the Series 2002 Bonds are Baa1 on the term bonds maturing on May 1, 2029, Ba2 on the term bonds maturing on May 1, 2037, and Ba3 on the term bonds maturing on May 1, 2043. Moody's hasn't rated the Series 2006 Bonds.
On June 15, 2016, Fitch withdrew all ratings assigned to U.S. tobacco asset-backed securities because modifications to material calculations originally part of the base Master Settlement Agreement have eroded Fitch’s confidence that ratings can be consistently maintained, as insufficient information exists to predict the likelihood and effect of future modifications, or that insufficient information will exist to support new, material variables included in the modifications.

Economic Factors and Next Year’s Budget

The bond covenants relating to the borrowing restrict the Authority’s annual budget to no more than $300,000 per year. Bond rating services fees are estimated to be $20,000. The other significant fee is $60,000 for continuing disclosure services from Bondlogistix.

The bond repayment is subject to a debt repayment schedule, but it can be accelerated, dependent upon greater than expected receipts from the Nation-wide Tobacco Settlement Lawsuit pool. The actual receipts are predicated upon cigarette sales (for the annual gross amount available for distribution) and certain demographic factors (which determine the amount any litigant receives). Although the Authority is currently on track to meet the maturity dates of the Bonds, it is presently behind on the expected final turbo redemption dates of those same Bonds.

NOTE 1 - NATURE OF ORGANIZATION

The California Statewide Financing Authority (the Authority) was created by a Joint Exercise of Powers Agreement (Agreement) effective as of June 14, 2002 between the counties of Colusa, Imperial, Kings, Madera, Modoc, San Benito, Solano, Tehama, Tuolumne, Yolo, and Yuba (the participating counties). A seven-member board of directors (Board) made up of the Commission of the California Statewide Communities Development Authority, a joint powers agency created pursuant to an amended and restated joint exercise of powers agreement dated as of June 1, 1988, governs it. The Authority was created for the purpose of empowering the Authority to finance the payments to be received by the participating counties from the nation-wide Tobacco Settlement Agreement (Payments) for such purposes, but not limited to, issuance, sale, execution and delivery of Bonds secured by those Payments or the lending of money based on thereof, or to securitize, sell, purchase or otherwise dispose of some or all of such Payments of the participating counties.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-wide and Fund Financial Statements

The Authority's financial statements have been condensed to present both the government-wide and debt service governmental fund financial information in one set of financial statements.

The government-wide financial information (i.e., statement of net position and statement of activities) is presented as the right hand column of the financial statements presented on pages 7 and 8. This information includes the financial activities of the overall Authority. Eliminations have been made to minimize the double counting of internal activities.

The statement of net position is designed to display the financial position of the entity.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular segment or function. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

The debt service governmental fund financial information is presented as the left hand column of the financial statements presented on pages 7 and 8. The middle column of these financial statements reconciles the two other columns, and the reconciling amounts are explained in further detail in Notes 3 and 4.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses when the liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.
NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pledged tobacco settlement proceeds are considered 'measurable' when the event giving rise to recognition - the domestic shipment of cigarettes (sales) - occurs. Because the annual pledged tobacco settlement proceeds are based on cigarette sales from the preceding calendar year, the Authority accrues half of the pledged tobacco settlement proceeds received in the subsequent year, which represents sales derived from January 1 to June 30. However, since those proceeds are not received until April of the following year, they are not considered available, and therefore are reported as deferred inflows of resources at year end.

The Authority reports the following major governmental fund:

- The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Net Position/Fund Balance

The government-wide financial statements utilize a net position presentation. Although the Authority's activities are restricted for debt service, its net position is categorized as unrestricted because of the deficit position.

The governmental fund utilizes a classified fund balance presentation. Fund balance is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purpose for which amounts can be spent. The Authority's fund balance is restricted for future debt service payments as its resources are legally segregated for that specific purpose.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.
NOTE 3 - ADJUSTMENTS BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND STATEMENT OF NET POSITION

The financial statement presented on page 7 includes an adjustments column that reconciles the balance sheet of the debt service governmental fund and the government-wide statement of net position. These adjustments are further detailed below while reconciling the fund balance of the debt service governmental fund and net position of the government-wide financial information.

Fund balance $ 27,570,838

Certain long-term assets are not available to pay for current-period expenditures and, therefore, are reported as deferred inflows of resources in the fund. 7,551,309

Long-term liabilities, including bonds payable and related discounts, are not due and payable in the current period and therefore are not reported in the governmental fund. Interest on long-term liabilities is not accrued in the governmental fund, but rather is recognized as an expenditure when it is due. Accrued interest payable is reported in the statement of net position.

Accrued interest payable (1,444,306)
Bonds payable (188,525,538)
Accreted interest (108,989,804)
Discounts on bonds 3,488,772

Net position (deficit) $(260,348,729)

NOTE 4 - ADJUSTMENTS BETWEEN GOVERNMENTAL FUND REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE AND STATEMENT OF ACTIVITIES

The financial statement presented on page 8 includes an adjustments column that reconciles the debt service governmental fund revenues, expenditures, and changes in fund balance and the government-wide statement of activities. These adjustments are further detailed below while reconciling the change in fund balance of the debt service governmental fund and the change in net position of the government-wide financial information.

Change in fund balance $ 2,169,218

The payment of the principal of long-term liabilities consumes the current financial resources of the governmental fund. However, this transaction has no effect on net position. 5,905,000

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental fund.

Change in accreted interest (11,088,141)
Amortization of bonds discounts (159,792)

Revenues in the statement of activities that do not provide current financial resources are reported as unavailable revenue in the fund. This amount represents the change in the unavailable revenue from the previous year. 379,413

Change in net position $(2,794,302)
NOTE 5 - RESTRICTED INVESTMENTS

Investments at June 30, 2021 totaling $27,570,733 are held by the indenture trustee and are restricted for the payment of future debt service.

Funds held by the indenture trustee may be invested in eligible investments as governed by the provisions of the indenture.

The following are eligible investments:

a) Defeasance collateral;
   b) Direct obligations of, or obligations guaranteed by, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, or the Federal Farm Credit System;
   c) Demand and time deposits or certificates of deposit, or bankers' acceptances;
   d) General obligations of, or obligations guaranteed by, any state of the United States or the District of Columbia;
   e) Commercial or finance company paper;
   f) Repurchase obligations;
   g) Corporate securities;
   h) Investment agreements or guaranteed investment contracts;
   i) Money market funds;
   j) The State of California Local Agency Investment Fund or any state administered pool investment fund in which any participant is statutorily permitted or required to invest;
   k) Any other investment described in California Government Code Section 53601, as it may be amended or supplemented; and
   l) Other obligations, securities, agreements, or contracts that are non-callable and that are acceptable to each rating agency.

Provided that eligible investments shall not include any obligations of any of the participating counties.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, one of the ways that the indenture trustee manages the Authority's exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturing evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, an entity will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The indenture does not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments.

Investments in external investment pools and mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. The commercial paper is also not exposed to custodial credit risk.

Concentration of Credit Risk

The indenture between the Authority and indenture trustee contains no limitations on the amount that can be invested in any one issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. At June 30, 2021 there were no investments in any one issuer that represented 5 percent or more of total investments.
NOTE 5 - RESTRICTED INVESTMENTS (Continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Debt proceeds held by the indenture trustee were used to purchase investments with the minimum ratings required by the indenture. As of June 30, 2021, the Authority's investments and credit ratings are as follows:

Fair Value Measurements

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles (GASB 72). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Authority has the following recurring fair value measurements as of June 30, 2021:

NOTE 7 - PLEDGED TOBACCO SETTLEMENT PROCEEDS

In November 1998, 46 states (including California), six other United States jurisdictions and participating cigarette manufacturers entered into a Master Settlement Agreement (MSA) in settlement of certain cigarette smoking litigation. The MSA calls for the cigarette manufacturers to make annual payments to the settling states, beginning in 2000 and continuing in perpetuity.

The State of California entered into a separate Memorandum of Understanding (MOU) with all California counties and certain affected cities regarding the distribution and use of the State's share of tobacco settlement revenues (TSRs). The MOU calls for 45% of the State's allocation to be distributed to the counties and certain affected cities based on population.
NOTE 8 - DEFICIT IN NET POSITION

Under the terms of the MSA as described in Note 7, the tobacco companies have agreed to make annual TSR payments in perpetuity. Under GASB Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues, these rights do not meet the criteria for recognition as an asset in the financial statements as the tobacco companies have no obligation to make TSR payments until cigarettes are shipped. The event that results in the recognition of an asset and revenue by the Authority is therefore the domestic shipment of cigarettes (sales). And since only the domestic shipment of cigarettes for the period of January 2021 through June 2021 had occurred and not been received by year end, this is the only receivable recognized by the Authority, which can only be estimated as it won't be received until 2022. That amount is estimated to be $7,551,309, which is one half of the $15,102,618 in TSRs estimated to be received for calendar year 2020 based on the analysis contained in the official statement of the California Statewide Financing Authority, Tobacco Settlement Asset-Backed Bonds, Series 2006, adjusted downward based on actual TSRs received in recent years.

As a result of the full amount of the long-term liabilities in the amount of $294,026,570 being presented on the face of these financial statements, but only $7,551,309 in TSRs accrued on the face of these financial statements, net position is shown as a deficit of $260,348,729 at June 30, 2021.

It should be noted that a decline in the overall consumption of cigarettes below the levels estimated, based on the analysis contained in the official statement of the California Statewide Financing Authority, Tobacco Settlement Asset-Backed Bonds, Series 2006, could have a material adverse effect on the payments received by the Authority used to pay its debt service payments of the Bonds. Although the Authority is currently on track to meet the maturity dates of the Bonds, it is presently behind on the expected final turbo redemption dates of those same Bonds.

As a result, on June 15, 2016, Fitch withdrew all ratings assigned to U.S. tobacco asset-backed securities because modifications to material calculations originally part of the base Master Settlement Agreement have eroded Fitch's confidence that ratings can be consistently maintained, as insufficient information exists to predict the likelihood and effect of future modifications, or that insufficient information will exist to support new, material variables included in the modifications.

Moody's ratings on the Series 2002 Bonds are Baa1 on the term bonds maturing on May 1, 2029, Ba2 on the term bonds maturing on May 1, 2037, and Ba3 on the term bonds maturing on May 1, 2043. Moody's hasn't rated the Series 2006 Bonds.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

The World Health Organization declared the worldwide coronavirus (COVID-19) outbreak a public health emergency on January 30, 2020 and officially declared it as a pandemic as of March 11, 2020. Management has performed an evaluation of certain financial statement line items such as investments, receivables and accrued expenses to determine whether valuation or impairment adjustments should be made. Management has determined that the amounts reported on the financial statements are properly valued as of June 30, 2021. However, since the duration and full effects of the COVID-19 outbreak are yet unknown there could be future negative impacts to the financial condition of the Authority.
OTHER REPORT
INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
California Statewide Financing Authority
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and the debt service fund of California Statewide Financing Authority as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise California Statewide Financing Authority's basic financial statements, and have issued our report thereon dated November 8, 2021.

Internal Control Over Financial Reporting
In planning and performing our audit of the financial statements, we considered California Statewide Financing Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of California Statewide Financing Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of California Statewide Financing Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters
As part of obtaining reasonable assurance about whether California Statewide Financing Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

NEW MARKETS TAX CREDITS
PROGRAM SUMMARY AND UPDATE

January 6, 2022
CSCDC Annual Meeting
The California Statewide Communities Development Corporation (CSCDC) is an affiliate of CSCDA and was organized on May 6, 2011 as a 501(c)(3) nonprofit public benefit corporation.

CSCDC is a “Community Development Entity” (CDE), created to participate in the U.S. Treasury’s New Markets Tax Credit (NMTC) program.

CSCDC competed for, and received a $35 million NMTC allocation award in 2013, a $38 million NMTC allocation award in 2014, a $70 million NMTC allocation award in 2016, and a $55 million NMTC allocation award in 2021.

- $143 million of allocation was successfully deployed into thirteen projects.
- Additional $55 million of allocation currently being deployed.
- Focused on projects that have significant community impacts in low income communities.
The New Markets Tax Credit (NMTC) program was enacted in 2000 as part of Community Renewal Tax Relief Act.

Program goals: Place-based anti-poverty and community revitalization (i.e. through creation of services and jobs benefitting low income persons).

Federal oversight: CDFI Fund (US Treasury Dept.) allocates NMTC authority to Community Development Entities (CDEs).

In the 17 rounds to date, the CDFI Fund has made 1,354 allocation awards totaling $66 billion in tax credit authority.

NMTC program has traditionally been reauthorized by Congress on an annual basis.
NMTC Allocation Process

- CDFI Fund (program within U.S. Treasury Dept.) allocates NMTC authority to certified Community Development Entities (CDEs).
- CDEs are generally financial institutions, community-based lenders, municipalities, economic development agencies, or developers.
  - CSCDC is a certified CDE
- Each CDE has discretion to identify projects that will benefit from the NMTC subsidy.
- There are many more projects than there are allocations from CDEs.
  - Perhaps 10x oversubscribed by some estimates
  - Highly competitive process to secure NMTCs
NMTC Allocation Process

NMTC allocation authority is allocated to the private sector (CDEs) through a competitive process; CDEs then have authority to sub-allocate to businesses.

CDEs are typically non-profit lenders, financial institutions, or economic development agencies.

Highly competitive process for a business to secure NMTC allocation from a CDE; demand for subsidy is often 10x what is available.

NMTC financing is typically provided in the form of debt which may be forgiven at the end of the 7 year tax credit compliance period.

“QALICB” entity is a qualified NMTC borrower that is an SPE affiliate of the project sponsor which owns and develops real estate.
CSCDC Advisory Board

• A CDE must demonstrate that it maintains accountability to residents of low income communities through representation on a governing board or an advisory board.

• At least 20% of the governing board or advisory board members must be representative of a low-income community (but not necessarily a resident in the community).

• CSCDC maintains an advisory board that is appointed by its governing board.
CSCDC Advisory Board

• CSCDC’s current advisory board is comprised of six members, all of whom are representative of low income communities:

THE HOUSING CRISIS
IN CALIFORNIA
“The CSCDA Workforce Housing Program is a powerful policy tool for cities to provide immediate housing affordability for “Essential Workers” while also providing cities with substantial long-term financial contributions. It is an innovative and creative financing structure to provide housing for a segment of the population where very little new housing production exists. The City of Anaheim’s residents are already benefiting from significantly reduced rents among the projects participating in the program.” – **Councilmember Trevor O’Neil, City of Anaheim**

“The City of Pomona is pleased to partner with Waterford and CSCDA in positioning the 777 Apartments for another 30 years of affordability. We see this as a positive piece to the larger effort of addressing the dire need for affordable housing solutions in California.” – **Kirk Pelser, Deputy City Manager, City of Pomona**
“The CSCDA Missing Middle housing program is an excellent fit for our City with its persistently strong rental housing market, increasing property tax revenues, and recently approved sales tax sharing measures with both our local school district (Measure J) and county (Measure H). Being able to provide long term affordable rental housing for our moderate income renter households is an important piece of our ongoing strategy to address the housing affordability crisis for all segments of our population who struggle with rapidly rising housing costs.” — William Huang, Housing Director, City of Pasadena.
Looking Ahead to 2022

- Rising Interest Rates and Competition from Market Rate Institutional Purchasers Threaten the Program.
- Evaluating Incorporation of Credit Enhancement and Other Potential Funding Sources.
- New Construction Opportunities.
